Green Garden Blok C3, Jakarta Barat

Final-year Computer Science student at Universitas Pertamina specializing in full-stack web development. During my internship at Telkom Indonesia, I developed an internal revenue dashboard using React, Inertia.js, Laravel, and MySQL for streamlined data monitoring and reporting. Additionally, I have 4 semesters of experience as a Teaching Assistant (OOP, Web Programming, OS), developing curriculum materials and mentoring students through complex concepts. Proficient in Java, PHP, Python, and JavaScript, I am eager to apply my technical and communication skills in a collaborative, high-impact software engineering role.

Education

Universitas Pertamina – *Simprug, Jakarta Selatan*
Bachelor of Computer Science

Aug 2022 – Aug 2026 (Expected)

Work Experience

Universitas Pertamina – *Simprug, Jakarta Selatan*
Teaching Assistant (Operating Systems, OOP, Web Programming)

Mar 2024 – Present

- Conduct weekly lab sessions across Operating Systems (C on Linux), Object-Oriented Programming (Java), and Web Programming (PHP/Laravel, JavaScript).
- Design lab modules, assignments, quizzes, and grading rubrics; provide hands-on mentoring and debugging support during sessions.
- Review and evaluate student submissions with structured, constructive feedback to improve code quality and understanding of core concepts.

Telkom Indonesia – *Jakarta Pusat*
Software Engineer Intern

Sep 2025 – Feb 2026

- Developed a full-stack web dashboard to visualize revenue and Account Manager (AM) performance metrics, enabling data-driven monitoring and reporting for internal stakeholders.
- Built the frontend using React with Inertia.js for seamless SPA-like navigation, backed by a Laravel API layer and a MySQL database.
- Collaborated with cross-functional teams to gather requirements, iterate on UI designs, and deliver dashboard features aligned with business needs.
- Stack:** React, Inertia.js, Laravel, PHP, MySQL

Leadership & Organizational Experience

Computer Science Student Association — Head of Alumni Relations –

Nov 2024 – Nov 2025

- Direct the Alumni Relations division to design strategic programs, career sharing sessions, tech talks, and professional networking events that boost alumni engagement.
- Manage a mentorship program pairing students with experienced alumni in the tech industry, and maintain a comprehensive alumni database.
- Serve as primary liaison between the student association and the alumni network, reporting divisional progress to the association's leadership.

CITE UP 2024 — Technical Division Committee Member – *Jakarta*

Mar 2024 – Sep 2024

- Managed all AV equipment (microphones, sound systems, projectors) and provided direct technical support to speakers and presenters.
- Conducted pre-event setup, sound checks, and technical rehearsals; performed real-time troubleshooting during the event.

Skills

Languages	Python, Java, PHP, C, JavaScript, SQL, HTML/CSS, Dart
Frameworks	Laravel, Flask, React, Inertia.js, Flutter, Bootstrap, Blade, JavaFX
Databases	MySQL, SQLite, Firebase Firestore
Tools	Git & GitHub, Linux, Firebase (Auth/Firestore), Telegram Bot API, Microsoft Power BI, Figma
Core CS	OOP, Operating Systems, Data Structures & Algorithms, Cryptography (AES, PBKDF2), Full-Stack Web Dev
Soft Skills	Leadership, Mentoring, Problem Solving, Project Management, Public Relations
